## **BC Government Set To Take Legal Action Against BRP**

The BC Government today announced it will take legal action against BRP in the ongoing "Pinecone Dispute". The allegations as presented by BC's ministry of natural resources state that BRP was knowingly negligent in their design, and the natural occurring pinecones in the area are truly the victims here. He goes on to say the repeated minor scuffing of pinecones due to impact with BRP's "Summit" product could have being overlooked, but BRP went "over the line" with their latest counter measure of burning any pinecone that comes in contact with the "XP".

When contacted BRP referred us to their "crack" legal team of "The Looter, TheNewfieBullet & Goldstein Barristers and Solicitors" who said: they will make every effort to have the case transferred to the Newfunland "High" Court, as finding un-by-ars-da jury members in the west could prove "fruitless".
